

Commissioner's Playbook:

Crowning Your Fantasy Football Champion with Gig

Step 1: Visit Giga-Mint.com. Send your league members to check out how badges work. (Trust us, they'll love it).

Step 2: Decide with Your League Your Trophy Style
Traveling Trophy Badge → One badge that moves from wallet to wallet each year (requires a tiny amount of crypto to transfer).
Permanent Trophy Case → A fresh badge minted each season for champs to keep forever.

Step 3: Make Sure Your Winner Has a Wallet Every champion must have a wallet address (like Solflare) to receive their badge. No wallet = no NFT prize. But don't worry—Giga-Mint has an easy tutorial video to help champs set one up in minutes.

Step 4: Select Your NFT Style Two awesome options: Custom NFT → Upload your own image and mint it. Official Fantasy Football Champion Badge → Currently in the Badge Shop!

Step 5: Award the Winner Traveling Trophy → Transfer the badge to this year's champ (tiny Solana fee). Permanent Trophy Case → Mint directly into the champ's wallet.

Step 6: Celebrate! Drop the badge link in your league chat. Let the bragging, memes, and trash talk roll in!

Commissioner Tip- Some leagues go the extra mile with bonus badges: - Best Trash Talker
- Biggest Upset - Unluckiest Team Gig makes it super easy.
